

Filters K&F Concept CPL&ND (8/16/32/64/128) Kit for DJI Mini

Ref: 6942052514668

Filters K&F Concept CPL&ND (8/16/32/64/128) Kit for DJI Mini 4 Pro

K&F Concept CPL&ND filter set (8/16/32/64/128) for DJI Mini 4 Pro.

Create even more beautiful shots with your DJI Mini 4 Pro. A set of filters by K&F Concept will allow you to do so! You will find a CPL filter and 5 different ND filters, which will provide you with excellent image quality and fantastic effects. The accessories are very easy to install and sturdy, yet lightweight - don't worry that they will overload your drone.

Great image quality

The filters are made of high-quality AGC optical glass, so they provide fantastic, lossless image quality. They will perform perfectly in a variety of scenarios! The CPL filter effectively reduces glare, improves color saturation and highlights white and blue hues, while the ND8 filter (3 stops) will come in handy on cloudy days. In normal daylight you will successfully use the ND16 (4 stops) filter. On the other hand, ND32 (5 degrees), ND64 (6 degrees) and ND128 (7 degrees) filters are best for recording in bright sunlight.

Lightweight and durable

The included filters fit the DJI Mini 4 Pro drone perfectly, and thanks to their lightweight design, they do not affect the operation of its gimbal or flight stability in any way. They are also very simple and quick to install. They are also distinguished by a multi-layer coating that protects their surface from scratches, dust and water. You can easily keep them in excellent condition for a long time!
