

Solar panel IMOU FSP13 for Cell PT 7W

Solar panel IMOU FSP13 for Cell PT 7W

Ref: 6976391037502

IMOU FSP13 solar panel for Cell PT 7W cameras.

Take care of a reliable power source for your Imou Cell PT camera and be sure that it will not refuse to serve you at the least opportune moment. The FSP13 solar panel provides up to 7.2 watts of power and is very durable - even harsh conditions won't scare it. It is also very easy to install - a cable with a total length of 4 m (0.5 m + 3.5 m) will give you flexibility and allow you to choose the optimal sunny location.

Impressive performance

With Imou you don't have to remember to charge the camera. The dedicated solar panel will provide it with a reliable power source for longer! Thanks to it, the device can be charged using eco-friendly solar energy. In addition, the power of up to 7.2 watts means that you only need a few hours in direct sunlight each day for the camera to operate continuously for a long time.

Improved design

The panel is distinguished by its robust, durable design, so it can serve you well even in adverse weather. It will perform perfectly in almost any conditions! What's more, the product is equipped with a reinforced USB-C cable with a specially designed connector, which features high durability and long life.
