Torx Hex Key Sets 1.5-10mm Deli Tools EDL3091 (silver)

Deli Torx Hex Key Set EDL3091

The Deli EDL3091 set includes 9 torx hex keys such as T10, T15, T20, T25, T27, T30, T40, T45 and T50. They are made of chromium-plated CrV steel, which makes them extremely durable. These practical tools will be useful in almost every workshop. Storage and transportation of wrenches is easy in a small box, which you will also find in the set.

Cr-V steel
Cr-V (chrome vanadium) steel is the European equivalent of 8650 steel (the name used in the United States and Japan). Chrome protects the steel from corrosion and the negative effects of oxides. Additionally, it protects against abrasion and makes the steel resistant to high temperatures. Importantly, this steel does not lose its properties at elevated temperatures, thus preventing tool deformation.

Brand
Deli
Model
EDL3091
