

## Charger SkyRC e3 Duo 2 x 20W

Charger SkyRC e3 Duo 2 x 20W

Ref: 6930460006233

### Dual power and mobility

SkyRC e3 Duo charger is the successor to the two-channel version of one of the most popular SkyRC chargers. E3 Duo allows you to charge batteries LiPo, Life, LiHV 2-3S with 20 W per channel and a maximum charging current of 2.2 A. Adjust the charging current to the capacity of the battery by selecting the appropriate value - 0.5, 1, 1.5 or 2.2 A.

### Multiplied performance

Both channels are programmed and operated separately, allowing two batteries to be charged simultaneously. The charger will intelligently charge the packages to their maximum capacity. Moreover, the batteries do not have to have the same configuration or be of the same type.

### Intuitive operation

E3 Duo allows you to select the type of battery and charging current separately for both channels using ergonomic buttons. Even if this is your first programmable charger, it is child's play to operate. You can charge the batteries directly through the balancer ports. The charger has a built-in 2S and 3S balancing port to prevent incorrect connection.

### Included:

Charger e3 Duo

Power supply cable

□ Power supply

□ AC 100-240 V

□ Charging power

□ 20 W (50W x 2)

□ Charging current

□ 0,5 A / 1 A / 1,5 A / 2,2 A

□ Battery type

□ LiPo/LiFe/LiHV 2-3S

□ Case material

□ Plastic

□ Dimensions

□ 108 x 76 x 50 mm

□ Weight

□ 500 g

□ Outside slots

□ Balancer's socket 2-3S
