

## Flashlight Nitecore TINI2, 500lm, USB-C

Ref: 6952506406357

Flashlight Nitecore TINI2, 500lm, USB-C

Nitecore TINI2 Flashlight

The Tini2 is a compact and rugged waterproof flashlight that will come in handy every day. Equipped with 2 LEDs, it offers soft light reaching 89 m. Thanks to several operation modes, you can adjust its operation to your needs or activate the lock, preventing accidental start-up of the flashlight. It has a special protection to ensure safe charging. You can also use it wired or wirelessly, and OLED display is responsible for convenient and clear access to the most important information, for example, remaining working time or selected operation mode.

Customize its operation to your own needs

The flashlight has 2 LEDs that provide soft light with a brightness of 500 lumens. In addition, its light range reaches 89 m. It is equipped with 2 modes of operation: DEMO, if you use it for a short while and DAILY - to use outdoors and for a long time. You can also use the TURBO function, for example, to light up your way or the ULTRALOW function to light up a selected area nearby. You can also adjust the brightness in 5 degrees (1 - 15 - 65 - 200 - 500 lm).

Compact design

Another advantage of the Tini 2 is its compact design. The flashlight's dimensions are 42.3 x 25 x 12.5 mm, and its weight is only 18.8g.

So you can successfully hide it in your pocket, or attach to your keys as a key ring, using the included holder. Despite the small design, the Tini 2 is equipped with a display, 2 LEDs and 2 buttons that allow you to turn on / off and change modes.

#### Series of safety features

The flashlight is equipped with several safety features, for safe charging. It is protected against over-discharge, over-charging and short circuit. The product also has a function of intelligent circuit protection and automatic stop charging if the battery level reaches 100%. In addition, the ATR system is responsible for good heat dissipation.

#### Wired or wireless

You can use the flashlight in 2 ways: wired and wireless. Use the Tini2 as a reading light by connecting it to your powerbank with a USB-C cable, for example. You can also use it wirelessly for up to 60 hours on a single charge, thanks to its 280 mAh battery.

#### OLED display

For greater convenience, the flashlight is equipped with an OLED screen that displays real-time information. With its help, you can check the battery level and voltage, screen brightness, set mode, or remaining runtime.

#### Locking function

The flashlight is equipped with 2 locking modes that you can freely use. Mode 1 prevents the flashlight from turning on with the power button. However, you can use the Turbo option by holding down the mode switch. While mode 2 ensures that both buttons of the flashlight are locked, so you can keep it safely in your pocket without worrying about accidental activation.

#### Durable and waterproof

The Nitecore flashlight has been designed with attention to detail. The metallic, anodized finish guarantees durability and resistance to drops of up to 1 m. The charging port has been covered with a special shield to prevent the ingress of dust or water. It is also IP54 water-resistant. So you can use it outdoors without worry, despite the bad weather conditions.
