

Flashlight Nitecore MT21C, 1000lm

Flashlight Nitecore MT21C, 1000lm

Ref: 6952506404537

Nitecore MT21C Flashlight

The Nitecore MT21C flashlight is distinguished by its adjustable head, which makes it ideal for many applications - for example as an EDC or during work in the workshop. It offers 5 levels of brightness and 3 light modes. It is also extremely durable and waterproof to IPX8. It only needs one 18650 or 2 CR123 / RCR123 batteries (not included) to power it.

Adjustable head

The head of MT21C can be tilted up to 90°. Thanks to this device can be used both as a regular flashlight, as well as angle lighting. You can successfully use it during an expedition to the demanding terrain, on a camping site or for small repairs. Adjusting the head position is extremely easy and smooth - you can do it with one finger.

Optimal lighting

The high-performance CREE XP-L HD V6 LED makes the MT21C capable of shining at up to 1000lm. Perfectly performs in many scenarios - during a night hike, while repairing your car or under a tent. Moreover, thanks to the applied technological solutions, the flashlight does not blink, generates bright, steady light and its range is up to 184m.

5 brightness levels and 3 light modes

Adjust the performance of the flashlight to your expectations. MT21C lets you choose from 5 brightness levels (Turbo, High, Mid, Low and Ultralow) and 3 light modes - Strobe, SOS and Beacon. It also provides direct, quick access to Turbo and Ultralow levels by simply holding down the On/Off button for a set amount of time. Opt for versatility and choose a flashlight that works for every situation!

Free power supply

To power the flashlight, you will need 2 CR123 / RCR123 batteries or one 18650 battery, which can provide a runtime of up to 700 hours. So you don't have to worry that MT21C will fail you too quickly. The device has also a built-in blue indicator which blinks indicating the battery voltage. So you can check its status at any time.

You can attach it in several ways

Provide optimal lighting and free your hands. The package includes a stainless steel clip that you can use to attach the flashlight to your backpack, pocket or belt. A small metal handle allows you to hang MT21C in a desired location. The device has also a magnetic base so you can attach it to a metal surface. The kit also includes a lanyard and holster.

Fearless of demanding conditions

The flashlight is extremely lightweight, handy and durable. It is distinguished by water resistance IPX8, you can safely immerse it to a depth of up to 2m, it is also resistant to falls from a height of up to 1m. It is made of excellent quality aircraft-grade aluminum, and thanks to the hard anodizing process, it is incredibly unlikely to be damaged. The device also got reverse polarity protection. In addition, the ATR module makes MT21C automatically adapt its performance to the environment.
