

## Flashlight Nitecore MH25S, 1800lm, USB-C

Flashlight Nitecore MH25S, 1800lm, USB-C

Ref: 6952506406548

### Nitecore MH25S Flashlight

The Nitecore MH25S tactical flashlight can shine with a brightness of up to 1800lm and features a runtime of up to 1500 hours. It offers several modes of operation and is characterized by extreme durability. It is waterproof to IP68 and compatible with many practical accessories (sold separately). Thanks to its advanced ATR technology, it automatically adjusts its operation according to environmental conditions.

### Impressive performance

Using the SST-40-W high-performance LED and advanced technologies such as PDOT, the flashlight's brightness reaches 1,800lm with a range of up to 504m. The MH25S is non-flashing and generates bright, even light. The device also offers a special Strobe mode that allows you to blind and disorient a potential attacker with dynamic light effects at random frequencies.

### Long life

The kit includes a durable 21700 Nitecore NL2150 battery with 5000mAh capacity. It provides a runtime of up to 1500 hours at the Ultralow brightness level. You can also use one 18650 or two CR123 / RCR123 batteries to power the device. Conveniently charge the

flashlight with the USB-C port, which is equipped with a cover to protect it from dust, water and debris. In addition, the built-in indicator lets you check the remaining battery power.

#### Accessory compatible

The flashlight is compatible with many accessories available for sale separately, which can greatly facilitate its use. With a special clip you can clip it to your pocket or backpack. Tactical Ring Pro NTR10 holder allows you to hold the device more securely and comfortably. You can also buy various mounts, diffusers and filters.

#### Solid construction

The device is made of excellent quality aircraft grade aluminum alloy and features a solid finish (hard anodizing, military grade HA III). This makes it extremely durable and resistant to damage. A fall from a height of up to 1m poses no threat to it. The flashlight is also IP68 waterproof, so you can use it in the rain. It is also resistant to submerging to a depth of up to 2m.

#### 2 modes to choose from

Adjust the operation of the flashlight to your needs and the current situation. MH25S can operate in 2 modes. Daily is perfect for everyday use. It allows 5 levels of brightness adjustment and has 3 special functions - Strobe, Beacon and SOS. Tactical mode will find use during tactical operations and self-defense. It offers 5 levels of brightness and the Strobe function. Moreover, in Daily mode the flashlight remembers the last used brightness level or Strobe function.

#### Special task flashlight

This practical flashlight is perfect for tactical operations, search operations, at home and on the go. Lightweight and handy - fits perfectly in your hand, and its operation is extremely simple and convenient. The buttons of the device are located in easily accessible places, so you can instantly start it or change the mode at any time.
