

## Flashlight with alarm, camera and eyes detector Nextool NE20

Ref: 6945064211051

Flashlight with alarm, camera and eyes detector Nextool NE20042 500lm

Nextool Flashlight NE20042

The Nextool NE20042 flashlight features up to 500 lumens of brightness and a compact design. It also has a powerful power supply and a number of features that highlight the survival and protective nature of the gear. You'll get access to a camera detector, an eye detector, and an optical/acoustic alarm.

### Impressive power

The compact design of the flashlight does not significantly affect its performance. The device has 3 main modes with a maximum brightness of 500 lumens. You can choose between High (500 lm), Low (20 lm) and Strobe (flashing light of 500 lm). NE20042 is also equipped with an infrared scanner. Thanks to that, you can adjust its operation to your specific needs.

### Specialized defense modes

The device has been thoughtfully designed to take care of your safety. Thus, you will benefit from a camera detector, an eye detector and an acusto-optic alarm. You can also use the manual alarm switch, located at the bottom of the flashlight. Safety first!

Well thought-out design

The 6061-T6 class aluminum, used in the aviation industry, has been used in production. This gives the device high strength and resistance to wear. What's more, the flashlight's compact design ensures you can take it with you virtually anywhere.

Specification:

Manufacturer

Nextool

Model

NE20042

Material

Aluminum 6061-T6

Brightness

500 lm (High), 20 lm (Low), 500 lm (Strobe)

Operation time

Camera detector (<16 h), optical/acoustic alarm (1.5 h)

Charging time

2.5 h

Dimensions

22 x 140 mm

Weight

78 g

Additional functions

Camera detection, Eye detection, acusto-optic alarm
