Multifunction mini pocket knife Nextool NE0142(red)

The Nextool NE0142 is a multifunctional pocket knife with a small size that will give you access to many practical tools. These include scissors, file or flat screwdriver. Extremely compact design ensures that you can fit it even in your pocket, and high-quality materials support high durability.

Many possibilities

The pocket knife is equipped with a number of useful elements that will facilitate the performance of daily activities. Thanks to this, you will gain access to tools that you would not be able to take with you separately. NE0142 is a combination of functionality and convenience.

Compact design

The design of NE0142 makes it easy to fit it even in your pocket. Equip yourself with a practical set of the most necessary tools, which you can always carry with you. The pocket knife has also a special ring, which allows you to attach it to the keys. The product is available in 3 color variants - black, red and green.
