Wireless keyboard Aigo V200 (black)

Aigo V200 Wireless Keyboard

The Aigo V200 Wireless Membrane Keyboard is equipped with 84 quiet keys and allows you to work smoothly and comfortably. It supports connection via Bluetooth and in the 2.4G band, and you can also pair it with 3 devices simultaneously. The product is also distinguished by its wide compatibility and long working time. It only needs 2 AAA batteries (included) to power it.

3 connectivity options

The V200 keyboard connects to your chosen equipment in 3 ways - in the 2.4G band, via Bluetooth 3.0 and via Bluetooth 5.0. You can even pair it with 3 devices at the same time and conveniently switch between them - just press the appropriate key. All 3 connection technologies guarantee fast, stable transmission - forget about interference!

Wide compatibility

No matter what equipment you use most often - the V200 keyboard will allow you to work comfortably in almost any situation. The device is compatible with popular operating systems such as iOS, Windows and Mac OS. So you can easily connect it to your laptop, computer, tablet or even smartphone.

Ref: 6926170090013

It can accompany you almost anywhere

Conveniently use the keyboard wherever you want - at home, at work or at university. The V200 is light and handy enough that you can easily take it with you wherever you need to go. You can easily fit it in your purse, backpack or laptop bag! In addition, thanks to the quiet keys, you don't have to worry that someone will be disturbed by the annoying noise. So you can freely use the keyboard in a cafe or library.

Long working time

The device is powered by 2 AAA batteries, which are included in the set. They will provide a surprisingly long working time for the keyboard. Assuming you use it for about 8 hours every day, you can use it for up to 150 days! Don't worry that the batteries will drain too quickly and prevent you from working.

Improved design

This practical keyboard has been refined in every detail. Thanks to its ergonomic design, it provides high comfort of use, even during prolonged work. Its keys yield easily to your fingers and are distinguished by a lifespan of 10 million clicks. In addition, next to the battery slot there is a small compartment for the USB receiver, which makes it much easier to store it and avoid losing it.
