Joyroom JR-X12 active stylus with replaceable tip (white)

Joyroom JR-X12 active stylus with interchangeable tip (white)

The Joyroom JR-X12 stylus is a high-end tool for anyone who appreciates the fluidity and precision of drawing or writing on an iPad. Equipped with palm rejection technology, it ensures that your hand rests comfortably on the screen without the risk of accidentally activating touch functions. The easy-to-read LED indicators will provide you with information on the battery status. It's a great choice for artists and amateur graphic designers.

Precision tool for creative expression

The Joyroom JR-X12 stylus features smooth operation and low latency for unparalleled sensitivity and precision. The stylus uses palm rejection technology, allowing you to rest your wrist on the screen without disturbing the device. This solution greatly enhances the user experience, allowing for natural gestures when drawing and writing.

Long-lasting work without wires

The JR-X12 stylus offers up to 10 hours of use after just 13 minutes of charging, making it a reliable companion in any situation. In addition, a smart power-saving system turns off the stylus after 5 minutes of inactivity. LED indicators provide instant information on charging status.

Compatibility and functionality

The JR-X12 is compatible with iPads of the 2018-2023 generation, ensuring wide compatibility with various models. The magnetic attachment mechanism to the tablet and the interchangeable tip are practical solutions that make the stylus easy to store and transport.
