Metal selfie holder 2m PULUZ for Insta360 One RS/X2/X3/X4 ca Metal selfie holder 2m PULUZ for Insta360 One RS/X2/X3/X4 camera (black)

PULUZ 2m metal selfie holder for Insta360 One RS/X2/X3/X4 camera (black).

Create unique selfies, take group photos with friends and gain unique perspectives. The Puluz PU641B metal mount extends up to 2m in length and is made of high-grade aluminum alloy, making it very stable and sturdy, yet lightweight. The accessory also has a built-in 1/4" hole that allows it to be mounted on a tripod or boom. There is also a 1/4" thread that allows you to seamlessly mount your camera or smartphone of choice.

## Adjustable length

This practical mount allows 5-position length adjustment in the range of 45.5 cm / 84 cm / 122 cm / 160 cm / 200 cm. So you can easily adjust it to your needs and prepare the perfect photo! The accessory is also very comfortable to use, and thanks to the additional handle you have the possibility to hang it on your wrist - you don't have to worry about it falling out of your hand!

## Durable, lightweight construction

High-quality aluminum alloy was used to make the handle. Thanks to this, the accessory will ensure the stability of your camera - even when you extend it to its full length, it will not wobble. It is also very durable and resistant to deformation. Despite such durability, the selfie stick is very light - it weighs only about 295 g. It will not be too much of a burden! What's more, the handle of the accessory is finished with a pleasant to the touch sponge.

## Wide compatibility

At the bottom of the selfie stick is a 1/4" hole, which allows you to mount it on a tripod or boom. In turn, convenient installation of a camera or smartphone is made possible by a 1/4" thread. Thanks to it, the accessory is compatible with many models of popular devices (it may be necessary to use additional mounts, which are not included in the set).
