Wireless Charger Budi 4600, 4-in-1, MagSafe, 15W (White)

The Budi 4600 wireless charger is a symbol of modernity and functionality, housed in an intriguing white casing. It provides fast 15W charging compatible with MagSafe, even for multiple devices simultaneously. Its unique modular design with magnetic elements and additional features such as an adjustable night light and colorful plates for personalization make it not only a practical but also a stylish addition to any home or office.

Versatile MagSafe Charging

The Budi 4600 offers efficient wireless charging with 15W MagSafe power, ensuring fast and safe charging for compatible devices. With support for various devices, this charger is versatile and can handle phones, watches, or wireless earbuds.

Modular Design with Magnets

The unique magnetic construction allows for changing the device's settings, creating new configurations according to the user's needs. Magnets provide stability to the devices, even when they are placed at an angle, enhancing functionality and safety.

Integrated Night Light

The Budi 4600 charger comes equipped with lighting that can be adjusted in intensity. Using colorful plates, you can achieve an

interesting effect.

Personalization and Style

The package includes 12 colorful plates that can be attached to the device, allowing for personalization. The elegant white color and the ability to customize the appearance make the charger a perfect fit for any interior.

Functionality and Convenience

Thanks to the built-in USB-C port and the ability to act as a stand, the Budi 4600 makes it easy to use devices while charging. Watching movies or browsing content becomes easier and more convenient.
