Havit I62 Wireless Headphones (black)

Reach for the Havit I62 wireless headphones and immerse yourself in a world of sound without limits! They offer deep bass and clear sound that will let you hear every detail of your favorite music. Their operating time reaches 8 hours on a single charge, and thanks to their foldable design, you can easily take them with you anywhere.

Sound at its best

Discover a new dimension of sound and enjoy music like never before! The headphones are equipped with 40-millimeter drivers that guarantee deep bass and clear sounds, regardless of the music genre. Now you can get even more pleasure from listening to your favorite music.

Up to 8 hours of operation

With Havit I62 your music will accompany you for hours! The built-in 400 mAh battery allows up to 8 hours of playback or phone calls. This means you can go on a road trip, start a long day at work or spend an afternoon walking around without worrying about a quick discharge. When it's time to recharge, it only takes 2.5 hours to enjoy your favorite sounds again.

Choose your way to connect

Listen to your favorite music, podcasts or watch movies without any restrictions wherever you are. The Havit I62 use Bluetooth 5.1 connectivity, which provides a fast, stable connection to the device of your choice up to 10 meters away. They also feature a 3.5mm audio port, so you can play songs even when the battery is drained or use them in conjunction with devices that don't support Bluetooth.

Comfort at the highest level

The Havit headphones are designed to provide maximum comfort even during hours of use. The ergonomic design makes them fit perfectly in your ears, eliminating discomfort, and their soft ear cups guarantee excellent isolation from outside noises. Thanks to the foldable design, you now have headphones that you can take with you literally anywhere - great for traveling.

Always in touch

Stay in touch with your loved ones, friends and co-workers no matter where you are. The headphones allow you to make phone calls freely, without having to hold your phone in your hand. With a microphone sensitivity of $103\text{dB} \pm 3\text{dB}$, your conversations will be crystal clear, even in noisy environments.
