3 Lens Filters CP, ND8, 16 Sunnylife for DJI MINI 4 PRO

Ref: 5906168430275

3 Lens Filters CP, ND8, 16 Sunnylife for DJI MINI 4 PRO

Create even more beautiful aerial shots. This set of filters designed for the DJI Mini 4 Pro drone will help you achieve the desired results! It includes a CPL filter, an ND8 filter, and an ND16 filter. Each of them is made of high-quality optical glass, ensuring vivid colors and capturing clean, detail-rich images. They are also water-resistant, resistant to oily smudges, and scratches - they will serve you well for a long time. They are also easy to install and lightweight, so don't worry about them overloading your drone or affecting flight stability. Convenient and safe storage for the filters is provided by the included box.

Highest Quality Shots

The CPL filter included in the set effectively reduces reflections, enhances color saturation, and image sharpness. It is perfect for landscape photography and works well for capturing the sky or water. You can also adjust its polarization degree by simply turning the golden aluminum ring. The package also includes ND filters (ND8 and ND16), which are suitable for shooting and taking photos in bright light conditions. They will provide you with vibrant, beautiful colors and help avoid overexposure. You can also achieve an interesting motion blur effect with them.
