

LaserPecker 2 / 3 Protective Cover

LaserPecker 2 / 3 Protective Cover

Ref: 5906168433603

Protective cover for Laserpecker 2 / 3

The Laserpecker LP23PC protective cover is an essential accessory for users of Laserpecker laser engravers. It not only offers optimal safety, but also enhances productivity by being a key piece of equipment.

Thoughtful design

The product is made of high-quality plastic, acrylic and aluminum, which guarantees its durability and aesthetics. The design of the cover combines functionality with a modern look, providing solid protection for the device. With dimensions of 287*263*257mm, which can be adjusted with additional accessories, the cover offers flexibility according to the user's needs. In addition, its light weight of 1443.5g makes it easy to handle and transport without compromising the mobility of the kit.

Certifications and safety

The LP23PC lid has a number of certifications (CE, ROHS, FCC, PSE, CA65, UKCA, KC), confirming its high quality and compliance with international safety standards. As a result, users can rest assured that they are choosing a reliable and safe product. Moreover, the advanced laser wavelength filtering technology in the 190nm-550nm and 800nm-1100nm ranges makes this product unique. It provides effective protection for the eyes from potentially harmful radiation, increasing safety during use.
