Hub 11w1 RayCue USB-C do 2x USB-A 2.0 480Mbps + 3x USB-A 3.2 5Gbps + SD/TF 3.0 + HDMI 4K30Hz + VGA 1080p + RJ45 + PD 3.0 100W (sary)

Hub 11in1 RayCue USB-C to 2x USB-A 2.0 480Mbps + 3x USB-A 3.2 5Gbps + SD/TF 3.0 + HDMI 4K30Hz + VGA 1080p + RJ45 + PD 3.0 100W (gray).

Doing everyday tasks will become even easier with the 11-in-1 hub from RayCue. It offers up to 11 ports, including HDMI, USB-A, VGA or RJ45, making it an indispensable tool for both work and everyday use. Despite its versatility, the hub remains compact and lightweight, making it an ideal travel companion.

#### Reliable connection to the network

You no longer have to worry about unstable Internet connections! The hub is equipped with an RJ45 port that provides a fast and reliable network connection with a maximum speed of 1000 Mbps. Now you can enjoy smooth content streaming no matter where you are.

#### Fast data transmission and charging

Forget about waiting indefinitely for the necessary documents to transfer between devices! With USB-A 3.2 Gen1 ports with a maximum data transfer speed of 5 Gbps and USB-A 2.0 with 480 Mbps, you can transfer files quickly and efficiently. What's more, the USB-C port with PD support and 100W power allows you to charge even the most demanding devices quickly and efficiently.

View images in 4K

Discover a new dimension of visual experience! The HDMI port provides amazing image quality at 4K@30Hz resolution, making every detail exceptionally clear and colors rich and realistic. The VGA port, on the other hand, offers a superior experience at 1080p@30Hz, perfect for presentations or watching movies. Whether you're working, studying or just relaxing, the ports allow you to connect your device to a variety of monitors, TVs or projectors, opening up new possibilities.
