Shoulder Bag PGYTECH OneGo Solo V2 4 (obsidian black)

PGYTECH OneGo Solo V2 4L Shoulder Camera Bag (Black)

Make transporting your essential camera gear easier with the PGYTECH OneGo Solo V2 shoulder bag. This bag is sure to appeal to photography enthusiasts, combining functionality with a minimalist, stylish design. It is made from durable material with a PU coating, making it highly resilient and resistant to splashes. The wide opening provides convenient access to your equipment stored inside, while numerous pockets and compartments allow for excellent organization of space.

Convenient Equipment Access

With PGYTECH, you don't have to worry about missing the opportunity to capture the perfect shot. The OneGo Solo V2 camera bag opens very wide, allowing you to quickly find and retrieve your necessary equipment. This is an excellent solution for photographers who often work in the field!

Optimal Space Organization

The OneGo Solo V2 bag helps you properly organize space and maintain order. It offers plenty of pockets and compartments where you can store necessary cables, power banks, batteries, and even a small iPad. With a capacity of 4 liters, it can accommodate either a mirrorless camera and lens or a DJI Mini drone with essential accessories. You also have a DIY divider available to easily adjust the bag's interior to your needs—set it up as you wish!

Practical Pockets

Need to have spare batteries on hand? No problem—the OneGo Solo V2 bag offers several small pockets perfect for storing them. You'll also find colored badges (green and red) that can serve as screwdrivers. Use them to mark the battery charge level! There's also space for a pen and a magnetic pocket where you can store cables or hard drives, among other things.

Sturdy Construction

Thanks to the high-quality materials with a PU coating, the bag is very durable and resistant to damage, such as scratches. It's also splash-resistant, so you don't have to worry about the safety of your equipment during transport! Furthermore, the bag is equipped with durable zippers distinguished by their exceptionally long lifespan and smooth operation. There's also a special anti-theft loop available.

Even More Features

The OneGo Solo V2 model is equipped with a special buckle that allows for quick adjustment of the strap length. You can also comfortably carry it on both your left and right shoulder. Additionally, a practical handle makes carrying the bag easier, while straps located on the bottom allow for convenient transport of additional equipment, such as a tripod. There's also a small pocket for an AirTag.

Included in the Set:

- Bag
- Divider B
- Accessory Straps x2
