

Lactation massager Momcozy LM01 (Pink)

Lactation massager Momcozy LM01 (Pink)

Ref: 5906168431258

Momcozy LM01 lactation massager (pink) MCMLM01-GE00BA-LY.

Make breastfeeding more comfortable for both you and your baby. The Momcozy LM01 lactation massager will bring relief to your breasts. The device allows you to heat and massage. It also offers 6 levels of intensity and effectively helps to loosen blocked milk ducts and relieve symptoms of nipple inflammation, while stimulating better milk flow.

Heating and massage mode

The device offers 2 modes of operation that allow you to warm up a sore breast as well as perform a massage. You can also use both functions at the same time. You can also choose from 6 levels of intensity, which allow you to gently but effectively treat even the most sensitive breasts.

Relief from pain and discomfort

Massaging with the Momcozy LM01 helps to soften the breasts before feeding, which makes it easier for the baby to eat and stimulates the milk reflex. The lactation massager also helps improve milk flow during feeding or pumping with a breast pump. The device helps to relax blocked milk ducts, thus relieving swollen breasts.

Inspired by the Gua Sha stone

The design of the LM01 lactation massager was inspired by the Gua Sha stone, which is used in traditional Chinese therapy. The Momcozy device offers 3 different sides that allow you to precisely massage different parts of the breast. Wearing it is easy and comfortable - the product fits perfectly into a bra, allowing use while nursing or expressing milk.

IPX7 water resistance

The high level of water resistance (IPX7) not only provides protection against milk splashes, but also allows you to use the massager in the shower. Indulge in a relaxing moment for yourself while taking a bath!

Thoughtful solutions

The BPA-free material is safe for both moms and babies. The working time of the device reaches 90 minutes on a single charge, and the included magnetic cable allows you to quickly renew its energy.
