Remote-controlled car 1:14 Double Eagle (red) Jeep Crawler Pro E340-003

Double Eagle Jeep Crawler Pro Remote Control RC Car 1:14 Scale E340-003

Discover a remote-controlled model that takes fun to the next level with phenomenal precision and off-road performance. The Double Eagle Jeep Crawler Pro RC car is the essence of power and excitement, designed for children aged 8 and above, as well as all adult RC model enthusiasts. It guarantees the sensations you expect from a real Jeep, reaching speeds that take your breath away!

Well-Thought-Out 4x4 Drive

Get ready for authentic off-road experiences! The independent suspension and advanced 4x4 drive of the Jeep Crawler Pro ensure unique stability and unmatched capability to overcome off-road obstacles. Reinforced, high-traction tires give you an advantage in any terrain, ensuring safety and full control during driving.

Potent Engine Power

Under the hood of the Jeep Crawler Pro lies a high-performance brushed motor, which, thanks to the efficient 7.4V/800mAh lithium battery, provides strength and durability for hours of play. This motor not only accelerates the model to impressive speeds but also delivers powerful acceleration necessary for overcoming terrain challenges.

Realistic Design

The stylish and aggressive look of the Jeep Crawler Pro attracts attention wherever you go. With every detail, from the realistically functioning LED lights to the authentic body styling, this model marks its presence, emphasizing its unique, off-road nature.

Intuitive Control

Remote controlling the Jeep Crawler Pro is intuitive and enjoyable, thanks to the ergonomically designed 2.4GHz controller, which allows for seamless interference-free play. Forward and reverse drive buttons, steering and speed adjustment provide full control over the vehicle, and an LED indicator on the controller signals active communication with the vehicle, ensuring readiness for action!
