Remote-controlled truck 1:26 Double Eagle (red) (Car Transporter) E583-003

RC Car Transport Truck Remote Control 1:26 Double Eagle E583-003

The RC model of a transport truck in 1:26 scale by Double Eagle not only impresses with precise details but also offers exceptional features that will make playing with it even more exciting! From realistic sounds and lights to moving parts - every aspect of this model has been carefully designed to provide maximum realism and satisfaction. The included remote control allows convenient vehicle control in every direction, and with the speed adjustment feature, you can tailor the driving pace to your preferences.

Simulate Loading and Unloading

Every detail of the truck is designed to deliver maximum fun. With the lifting transport frame and rear elevator, you can fully simulate the process of loading and unloading vehicles. Just press the appropriate button on the remote to allow the vehicles to safely descend from the platform! Moreover, illuminated headlights and horn sound make the play even more realistic.

Maneuver Like a Pro

Feel like a real master of the wheel! With the ability to disconnect the frame, you can adapt to any situation and overcome any obstacle with ease. Meanwhile, the 90° turning function of the front part allows precise maneuvering even in the toughest terrain conditions, giving you full control over every move.

Full Control Over Every Move

The remote control pilot allows you to freely steer the truck remotely up to 50 meters away. You can drive the vehicle forward, backward, and perform turns in both directions, providing yourself with full freedom of movement. Moreover, with the option to choose between two speeds, you have control over the driving pace - from slower for precise maneuvers to faster when you need acceleration.
