Ref: 6975710733057

Yaber K2S Projector

The Yaber K2S projector will find its use in almost any home or office. It provides excellent image quality with its native 1920 x 1080P resolution with 4K (H265). With 16:9 and 4:3 aspect ratios and 800 ANSI lumens of brightness, any movie, presentation or game will look amazingly clear and detailed. In addition, it supports voice commands and connects to a smartphone via NFC.

High-quality picture and sound

The K2S offers native Full HD 1080P resolution, ensuring a sharp and clear image. The projector also provides surround sound from Dolby Audio and JBL for an exceptional audio experience. Whether you're watching a movie, listening to music or playing games, the sound will always be clear and full of detail.

Various ways to connect

The Yaber K2S is equipped with HDMI x2, USB, USB-C, audio jack and AV ports. In addition, it offers Wi-Fi 6 and Bluetooth 5.0 wireless connectivity for quick and easy connection to a variety of devices. The NFC function allows you to instantly pair your smartphone with the projector, making displaying an image from your phone a breeze.

Tailored to the user's needs

The projector can be placed either on the front or back of the screen, on a desk or ceiling, allowing for flexibility in any space. Automatic and manual vertical and horizontal keystone correction, as well as auto focus, make the device ready to use in seconds, without the need for complicated calibration.

Smart features

The Yaber K2S supports TV Dongle, which allows access to more than 7,000 apps such as games, music, movies and series. Amazon Alexa compatibility allows for convenient voice control in English, and the ambient mode creates a unique mood, perfect for evening séances, yoga or meditation.
