

Dual Jet Rail Kit for Lefeet S1 Pro

Dual Jet Rail Kit for Lefeet S1 Pro

Ref: 6973895610033

Lefeet S1 Pro two scooter holder

This practical mount was created for water adventurers who want even more power and excitement when diving. It allows safe and stable mounting of two Lefeet S1 Pro underwater scooters, allowing users to move dynamically and quickly underwater. It is also very easy to install and features an ergonomic design, so it guarantees comfortable holding and minimizes hand fatigue, even during prolonged use. Discover new possibilities and enjoy diving even more!

Capture your underwater adventure

Do you want not only to experience an unforgettable underwater journey, but also to record its most interesting moments? No problem - the Lefeet mount allows you to mount professional underwater filming equipment. So, for example, you can attach a camera to it along with lighting. Create stunning underwater shots and revisit your adventures not only in your memories!
