Wireless adapter, Ottocast, CP79, A2AIR Android (black)

Wireless adapter, Ottocast, CP79, A2AIR Android (black)

Modern lifestyles require solutions that keep up with the pace of everyday life and enable intuitive and seamless communication even on the go. The Ottocast A2-AIR Wireless Adapter for Android combines the latest wireless connectivity technologies with ease of use. It is designed to eliminate cumbersome cables and maximize everyday convenience. NOTE: some car models may require a supporting cable to operate with the adapter.

Always connected

The Ottocast A2-AIR adapter will automatically connect to your smartphone every time you get in the car. Forget the need to painstakingly pair your device every time - just start driving and the system will take care of the rest! Enjoy convenient access to all phone functions without taking your hands off the wheel.

Ease of use

Thanks to Plug & Play support, the wireless adapter does not require any complicated installation procedures - just plug it into the USB port to enjoy its functionality. With it, you can safely make phone calls while driving, use Google Voice Assistant and much more!

Reliable connection

The use of 5G network technology and a high-speed 5GHz Wi-Fi connection has made it possible to guarantee constant and reliable connectivity. With Ottocast, you'll always enjoy smooth data transmission and optimal call quality and media content streaming.

#### Automatic updates

The adapter independently downloads and installs software updates over the network (OTA - Over The Air), ensuring that the device is constantly improving its performance and adapting to the latest features and security standards.

#### Advanced chip

An advanced chip is responsible for the fast and efficient operation of the Ottocast A2-AIR adapter. Thanks to it, the product ensures smooth operation, even when using advanced applications.

#### High compatibility

The adapter is compatible with many models of cars and smartphones running Android 11 or later, so you can successfully use it with the most popular brands of devices.
