

Classic Panels Recycled 52-piece GEOMAG GEO-471

Classic Panels Recycled 52-piece GEOMAG GEO-471

Ref: 0871772004714

Classic Panels Recycled 52-piece GEOMAG GEO-471 magnetic building blocks.

Discover endless building possibilities with Geomag Classic Panels Recycled magnetic blocks that combine STEM education with great entertainment. Designed for little builders ages 5 and up, this 52-piece set encourages creative thinking and learning about physics and math principles through play. What's more, 100% recycled plastic is used to make the individual parts, making them not only durable, but also environmentally friendly.

Creative building without limits

Exceptionally strong Geomag magnetic balls and sticks allow you to easily create solid constructions, making even the most complicated models child's play. The use of high-quality magnets not only guarantees stability, but also allows quick rebuilding without having to dismantle the structure. The set also includes plastic panels in the shape of triangles, squares and pentagons, with the help of which the child can further strengthen and decorate his designs.

Developing skills through play

The Geomag Classic Panels Recycled set not only develops imagination and creativity, but also strengthens motor skills. Through play, children learn the basic principles of physics and geometry, plus they learn problem solving. It's the perfect combination of learning and fun!

All in one

The set also includes two practical boxes that help organize the small pieces and make it easy to clean up after play is over. It's ideal for parents who appreciate order and easy storage of toys.

The set includes

16x magnetic stick
16x metal ball
10x triangular panel
8x square panel
2x pentagonal panel
2x storage box
