Zeblaze Thor Ultra Smartwatch (Black)

Zeblaze Thor Ultra Smartwatch (Black)

Ref: 6946639813038

Zeblaze Thor Ultra Interstellar Smartwatch (Black).

Choose a smartwatch that can accompany you almost anywhere. The Zeblaze Thor Ultra Interstellar features an easy-to-read AMOLED HD display and connects wirelessly to headphones or speakers via Bluetooth 4.2 or in the 2.4 GHz band. It also runs for up to 36 h on a single charge and offers 16 Gb of built-in memory. In addition, SIM card and 4G LTE support allows you to make calls directly from the smartwatch. But that's not all! Thor Ultra Interstellar offers access to the Google Play store, from which you can download apps such as Instagram and YouTube. All this means that this device will give you easy access to the phone functions you use most often. So you don't have to carry it around with you!

Refined design

Zeblaze Thor Ultra Interstellar catches the eye with its refined, minimalist design. The watch features a round screen made of Gorilla Glass, which translates into durability. In addition, it offers a rotating crown, which affects the simple and convenient operation of the device. In turn, the metal workmanship translates into the product's durability.

Efficient operation

The smartwatch uses a high-end CoretexTM-A7MP Quad-Core CPU, which translates into efficient operation of the device. In addition, it offers 2GB of RAM and 16GB of ROM, so you can store more files on the device, such as music, photos, or apps.

Round AMOLED display

Choose the Zeblaze Thor Ultra Interstellar and get convenient access to notifications and settings. The smartwatch uses a 1.43" AMOLED HD screen with a resolution of 466*466 pixels. In addition, the screen bezel has been reduced by 16.5%, allowing you to use the smartwatch even more comfortably. You can also customize the appearance of the smartwatch by choosing from the available dial designs or set the photo of your choice.

4G LTE - reliable connectivity

Make calls directly from the smartwatch. The watch offers a SIM card slot and supports 4G LTE network, so you can make phone calls and talk to your loved ones directly from the smartwatch. In addition, the device supports WiFi connectivity for even more convenience. Note: the smartwatch does not require or support phone connectivity. All forms of connectivity are for pairing with speakers or headphones.

You will always reach your destination

Have the confidence to get to your desired destination. The Zeblaze Thor Ultra Interstellar smartwatch supports GPS, GLONASS, Beidou, AGPS satellite systems and supports Google Maps. As a result, it provides accurate location data no matter where you are.

Allows you to take care of your health and fitness

Gain constant access to health information. The Zeblaze Thor Ultra Interstellar smart watch monitors your heart rate around the clock and sends notifications in case of alarming results. It also measures blood saturation, counts the number of steps taken, calories burned and distance traveled. This allows you to track your progress. What's more, the available sports modes will allow you to increase the efficiency of your workouts.

Long run time and fast charging

The use of a long-lasting battery (930 mAh) and a powerful processor makes the smartwatch work for about 36 hours during daily use and up to 24 hours in heavy use mode. What's more, the device supports fast charging - after about 45 min it will be ready for further use.

Additional features

Zeblaze Thor Ultra Interstellar supports a range of capabilities, so there is something for everyone. The watch supports the Google Play store, through which you can download apps such as Instagram, YouTube, TikTok, WhatsApp and many others. Use your favorite apps conveniently, without having to reach for your phone.
