Colmi V68 smartwatch (black)

Stock up on a smartwatch that will perform in almost any conditions. Colmi V68 is equipped with a compass and LED flashlight, making it useful for you in the field and beyond. It is also distinguished by its IP67 water resistance and long operating time. It's also equipped with a 1.43-inch display for convenient operation. The watch also offers more than 100 sports modes and many interesting features, such as sleep monitoring, heart rate measurement and more.

Sporty design

The Colmi V68 smartwatch not only looks great, but is also very comfortable and durable. Its additional advantage is IP67 water resistance, so you can use it in the rain or when washing your hands without worry. It is not intimidated by accidental splashes! In addition, the watch's silicone strap is skin-friendly and provides long-lasting comfort.

It will prove itself in the field

Do you often take part in various types of expeditions? The V68 smartwatch will also come in handy in such situations! The device has a built-in compass that will help you orient yourself in the field. But that's not all - the watch is equipped with an LED flashlight that generates a strong white light. Now even if your outing gets a bit long, you will easily light your way in the dark!

Round 1.43" display

Convenient operation of the smartwatch is made possible by a round 1.43" HD display with 360x360p resolution. It provides crisp, true-to-life colors and high-quality images in almost any conditions. You can also customize its appearance to your liking by choosing from a variety of menu styles and dial designs. Check out the available options and express yourself!

Always in touch

Don't let yourself miss any important information. The smartwatch will immediately notify you of incoming messages - now you won't miss anything. What's more, the V68 allows you to make phone calls via Bluetooth. No need to reach for your smartphone every time!

For the sake of your health

Take care of your well-being and gain the ability to react quickly to worrying symptoms. The V68 smartwatch allows you to precisely measure your heart rate, blood pressure and oxygen saturation (SpO2). The device also has a sleep monitoring function - it analyzes its phases and measures their duration. This will help you get to know your body better!

Choose from the available sports modes

Are you trying to lead an active lifestyle? The Colmi V68 smartwatch is for you! The watch offers more than 100 sports modes to choose from and makes it easy to monitor your progress. Skipping, running, biking or maybe skiing? Choose your favorite sport or try something new!

Long running time

The need to charge the smartwatch frequently is a thing of the past. The V68 smartwatch is equipped with a 450 mAh battery and stands out for its reduced power consumption, so it can run for a really long time. With normal use it lasts for about 10 days, and if you use Bluetooth connections - up to 5 days. On the other hand, in standby mode, the device will serve you for about 30 days.

Additional features for you

The smartwatch also offers a number of additional functions that will come in handy on a daily basis. Among other things, it offers a stopwatch and alarm clock, and allows you to remotely operate your smartphone's camera. You can also use it to check the weather and locate a lost phone. Now everything you need is at your fingertips!
