

## Nightlight speaker Spiderman Lexibook

Nightlight speaker Spiderman Lexibook

Ref: 3380743096469

Lexibook Spiderman nightlight speaker

Speaker with nightlight function and Spiderman figurine by Lexibook will enchant any fan of the famous animation. The device provides high-quality audio and can serve as a decorative feature.

Design that delights

The speaker was designed with attention to every detail. The Spiderman figurine is made of durable material and illuminates, creating a phenomenal visual effect. The base of the speaker is decorated with motifs from the animation that will enchant any fan.

Wireless freedom

Thanks to Bluetooth technology, you can easily connect the speaker to any device and enjoy your favorite music without unnecessary cables. This is ideal for any occasion - from everyday relaxation to parties and gatherings with friends. The device is also equipped with a USB port that allows you to play music from a flash drive - an easy way to always have access to your favorite tunes.

Amazing sound quality

Despite its compact size, the Lexibook speaker delivers clear and crisp sound. With a transmission power of 1.7 dBm and a wide Bluetooth frequency range (2402-2480 MHz), music always sounds natural.

#### Ease of use

The intuitive button layout makes it easy to control the speaker. The ability to change the operating mode (Bluetooth/USB) and the playback control (play/pause, next/previous song) mean that even the youngest can handle the device.
