

Portable 4-in-1 Flextail Max Cooler Fan

Portable 4-in-1 Flextail Max Cooler Fan

Ref: 6971670131322

Flextail Max Cooler 4-in-1 Portable Fan

Flextail Max Cooler is a versatile 4-in-1 device that combines the functions of a portable fan, light, mosquito repellent and powerbank. Designed for users actively spending time outdoors - it is very convenient to use and is distinguished by its long operating time. Its additional advantage is its high durability and IPX4 water resistance.

Lamp with adjustable light brightness

Max Cooler is equipped with a lamp with adjustable light brightness. You can choose from up to four intensity levels - 50 lm, 150 lm, 250 lm and 350 lm. This allows you to adjust the lighting to your needs! From a subtle glow on a camping trip to a strong light necessary for nighttime activities - with Flextail you will be prepared for any situation.

Effective mosquito repellent

The device offers two mosquito repellent modes: Low and High. The first generates heat at 135°C and stands out with a range of up to 3 m, while the second provides a temperature of 165°C at a distance of up to 6 m. Enjoy a barbecue with friends or an evening at the campsite without uninvited guests!

Cool down on hot days

Ensure pleasant cooling during hot weather. The Max Cooler fan offers four fan speed options: 2 m/s, 3.5 m/s, 4 m/s and 5 m/s. This allows you to adjust its operation to your current needs! What's more, the improved weight-reduced blades provide more efficient airflow for more efficient cooling.

Powerful battery, powerbank function

Max Cooler works wirelessly, so you can forget about tangled cables. The built-in 9600 mAh capacity battery ensures its long operating time - from 3.5 hours to 12 hours as a fan, from 9 to 25 hours as a light and from 8 to 18 hours as a mosquito repellent. In addition, the powerbank function allows you to charge other devices, which is invaluable in places cut off from permanent power sources.

Refined in every detail

The Max Cooler fan is made of extremely durable materials, making it resistant to drops from heights of up to 1.2 meters. The device is also IPX4 waterproof certified, making it ideal for outdoor use in a variety of conditions. The product is also equipped with a safety lock to prevent accidental activation, such as during transportation.

Included

Fan
USB-C charging cable
User manual

Manufacturer Flextail
Model MAX COOLER
Battery capacity 9600 mAh
Inlet speed 2 m/s / 3.5 m/s / 4 m/s / 5 m/s
Light brightness 50 lm / 150 lm / 250 lm / 350 lm
Mosquito repellent modes Low: 135°C at a range of up to 3 m; High: 165°C at a range of up to 6 m;
Rated voltage 12 V
Rated power 24 W
Drop resistance Up to a height of 1.2 m
Operating time Fan: approx. 3.5-12 h; Lamp: approx. 9-25 h; Mosquito repellent: approx. 8-18 h;
Volume level 30-65 dB
Water resistance IPX4
Material ABS + PC / PBT
Dimensions Approx. 239 x 239 x 155 mm
Weight Approx. 850 g
