

## Electric Scooter Navee V50

Electric Scooter Navee V50

Ref: 6975293670749

### Electric Scooter Navee V50

Looking for a reliable scooter for city travel? Choose the Navee V50! This unique vehicle stands out with an impressive range of up to 50 km and a speed of up to 25 km/h. It easily overcomes inclines up to 20% and is waterproof according to IP55 standards. Its foldable design allows for convenient transportation and storage, and a dedicated app simplifies its operation. Additional features of the scooter include dual brakes and 10-inch tires.

### Go Further and Faster

You no longer have to worry about your scooter running out of power at the least opportune moment. The maximum range of the V50 model is a whopping 50 km - a great option for daily use! Moreover, an efficient 560 W motor allows the vehicle to reach speeds of up to 25 km/h and easily handle inclines up to 20%. All this enables you to move effortlessly even on more challenging terrain.

### Thoughtful Design

Forget about transportation and storage problems. The V50 model features a foldable design, making it easy to move from place to place, fit into a car trunk, or store in a corner of a room. An interesting addition is also a dedicated spot for an AirTag. Now you can easily locate your scooter if needed!

### Designed for Your Comfort

Thanks to its ergonomic design and enlarged size, the scooter facilitates maintaining the correct posture during riding and ensures user comfort. It is also distinguished by its IP55 waterproof rating, so you can use it without worries even in unfavorable weather. The V50 model is also equipped with rear lighting and a front headlight that automatically starts to shine when it gets dark around - this will help you increase your visibility on the road, and thereby ensure safety.

### Large, Durable Tires

The scooter is equipped with 10-inch pneumatic tires, which perform well even on more challenging terrains. As a result, the vehicle effortlessly overcomes many common obstacles, such as speed bumps. Enjoy riding regardless of the conditions!

### Safety is a Priority

With the Navee V50, riding is not only enjoyable but also safe. The scooter uses an advanced BMS system, which in combination with intelligent algorithms protects it from overcharging, excessive discharge, short circuit, and overheating. Don't worry about it getting damaged quickly!

### Facilitated Operation

Gain convenient access to information. The scooter is equipped with a 3.5-inch display that allows you to check the current speed, battery level, or selected mode (options include Pedestrian, Standard, and Sport) at any time. You also have a dedicated app that allows you, among other things, to activate the electric lock, turn on the rear light, and check ride data.

### Dual Braking System

Ensure your safety on the road. The V50 scooter is equipped with two brakes - front (W-ABS) and rear (disc). This allows you to stop immediately when necessary. Rely on reliability and enjoy a safe ride!
