

## Lamp Neewer BH30S RGB LED Stick 2500K-10000K

Ref: 6976831830106

Lamp Neewer BH30S RGB LED Stick 2500K-10000K

### Neewer BH30S RGB LED Stick 2500K-10000K

The Neewer BH30S RGB LED Stick is a practical LED lamp that offers a 15 W power output and a maximum brightness of 1800 lux. With a wide color temperature range from 2500K to 10000K and the ability to precisely adjust brightness from 0% to 100%, it is perfectly suited for various conditions. Additionally, a high CRI and TLCI rating of 97+ ensures authentic color reproduction, which is crucial for photographers and filmmakers aiming for the best visual effects.

### Full Control Over Light Parameters

The lamp offers users complete control over light parameters, allowing for precise adjustments to meet the needs of the scene. Now, you can freely adjust the color temperature from 2500K to 10000K and brightness from 0% to 100%. There is also the option to change the lighting color. All these features make the device an ideal choice for creators who need to precisely calibrate light for different conditions and visual styles.

### Advanced Control Options

There are three ways to control the lamp, increasing its usability flexibility. The first option is control via the NEEWER app, which allows for remote management of up to 255 devices simultaneously. There is also support for 2.4G control, which does not require pairing. The third method is traditional control directly on the device - using buttons and an intuitive, touch-based color mixer.

#### Efficient Battery

The BH30S lamp is equipped with an efficient lithium-ion battery with a capacity of 4150 mAh, which provides up to 150 minutes of operation at full power. Moreover, with support for PD (Power Delivery) charging via a USB-C port, the device will be ready to work in just about 3.5 hours. The product can also be charged while in use, which is especially useful during longer photo or video sessions.

#### Versatility in Mounting Methods

The standard 1/4" thread allows for seamless mounting of the lamp on most popular tripod models. The device also offers a detachable handle, which allows for comfortable holding at various angles. This makes it also successfully usable during moving photo shoots or live events.

#### Included in the Package

Lamp  
Handle  
USB-C Charging Cable  
Transport Bag

#### Manufacturer

Neewer

#### Model

B0BV2Z82XC

#### Number of LED diodes

248 (RGB 80, cool light 84, warm light 84)

#### Power

15 W

#### CRI

97+

#### TLCI

97+

#### Max. brightness

1800 lux / 0.5 m (6300K)

#### Color temperature

2500-10000K (increments of 100K)

#### Dimming range

0-100% (increments of 1%)

#### Hue

0-360°

#### Saturation

1-100%

#### Number of scenes

18

#### Battery capacity

4150 mAh (7.7 V, 32 Wh)

#### DC input

USB 5 V / 2 A, 9 V / 2 A

#### Connector

USB-C
