

Filters set for DJI Mini 3 / Mini 3 Pro Neewer FL25 ND8/16/3

Ref: 6976831830793

Filters set for DJI Mini 3 / Mini 3 Pro Neewer FL25 ND8/16/32/64/128/256/ND1000/UV/CPL/BSA/LPR/S

Neewer FL25 ND8/16/32/64/128/256/ND1000/UV/CPL/BSA/LPR/S filter set for DJI Mini 3 / Mini 3 Pro.

The Neewer set for the DJI Mini 3 and Mini 3 Pro drones allows you to create cinematic video shots. It includes 12 different types of filters that provide a wide range of adaptability to changing lighting conditions and bring unique effects to your recordings.

Wide range of ND filters

Neutral Density (ND) filters allow you to film in bright sunlight with clarity and crispness. The set includes filters with different degrees of darkness (ND8, ND16, ND32, ND64, ND128, ND256 and ND1000). Each reduces the amount of light entering the camera, enabling balanced exposures and realizing long exposures.

Original atmosphere

The Neewer kit also includes filters that bring creative and artistic touches to photos. Blue Streak creates an anamorphic flash effect, and LPR minimizes the yellow-green glow from city lights. Also at your disposal will be 8 Points Star, allowing you to create a star flare effect.

Faithfully reproduced colors

The CPL filter reduces glare from non-metallic surfaces and does not introduce color changes, which is important when filming in bright sunlight. The UV filter, on the other hand, blocks ultraviolet radiation and eliminates the blue tint of the image, which also contributes to

improved contrast and color.

High-quality optical glass and lightweight construction

The accessory is made of HD double-coated optical glass, which provides crystal clear images. A 30-layer nanometer coating protects the filters from water, scratches, dust and fingerprints. The lightweight aluminum frame does not affect the calibration of the drone's gimbal, which is important when changing filters frequently.

Included:

ND8 filter ND16 filter ND32 filter ND64 filter ND128 filter Filter ND256 Filter ND1000UV Filter CPL filter Blue Streak Filter LPR filter 8 Points Star filter

Manufacturer Neewer Model FL25 Compatibility DJI Mini 3, DJI Mini 3 Pro Material HD optical glass, nanometer coating, aluminum frame Weight 1,2 g
