Cycplus Z1 bicycle computer holder

The Cycplus Z1 holder allows you to quickly and stably mount your bicycle computer on the handlebars of your bicycle. It was made of high-quality materials, so it is not only very durable, but also provides the device placed on it with safety and shock resistance. At the same time, the accessory is very easy to install - it will not take you too long. The mount fits handlebars with a diameter of up to 31.8 mm and is compatible with most bicycle computers of well-known brands.
