

Air pump Cycplus A2

Air pump Cycplus A2

Ref: 6976297860037

Cycplus A2 electric pump

Be prepared for any circumstance. The Cycplus A2 is a multifunctional device that can act as a pump, powerbank and LED flashlight. It is equipped with a powerful rechargeable battery and offers a maximum pressure of 150 psi. It also comes with a ball pump nozzle, a bike mounting bracket and a carrying bag.

Practical pump

The A2 inflator provides a maximum pressure of 150 psi and an air flow of 12 l/min. This allows you to inflate a bicycle tire (700x25C) in just about 90 seconds! The kit also includes a nozzle for inflating balls. You can also set the target pressure and monitor its value in real time on the built-in display.

Powerful battery

The A2 is equipped with a high-performance dual-cell battery (2x 2600 mAh). This makes it stand out for its long operating time on a single charge. Now you can easily inflate a car tire about 3-4 times, a mountain bike tire about 12-18 times, and a basketball about 35-40 times. Your inflator won't discharge too quickly! What's more, the charging time of the product is only about 2 hours - you don't have to wait long.

Additional capabilities

The built-in rechargeable battery makes the A2 pump can act as a powerbank. Now you can easily charge your phone in almost any situation! The device is also equipped with LED lighting, so you can successfully use it as a flashlight. Now you can easily carry out a minor repair on the side of the road or light your way after dark!

Lightweight, compact, portable

The pump weighs only 380 g, and its dimensions are 180 x 55 x 53 mm. Thanks to this, its transportation will not cause you any problem - you can always have it with you. In addition, the included handle allows you to conveniently attach the device to the bicycle frame. Take advantage of this opportunity to have it at your fingertips during your next trips!
