

Battery for an electric bicycle, Green Cell, EBIKE03STD, 15A

Ref: 5903317228660

Battery for an electric bicycle, Green Cell, EBIKE03STD, 15Ah (540Wh), E-Bike 36V

Battery for an electric bicycle, Green Cell, EBIKE03STD, 15Ah (540Wh), E-Bike 36V

Need a reliable battery for your electric bike? Choose the Green Cell EBIKE03STD model! Li-Ion cells with increased density provide an impressive range, while the intelligent BMS management system ensures efficient and safe operation. The battery is compatible with motors up to 250 W, and the accessories included in the package enable quick and easy installation. Moreover, you will also find keys for the anti-theft lock and a dedicated charger in the package.

Large Capacity, Great Range

Embark on even exceptionally long journeys without worry. The Green Cell battery has a capacity of 15 Ah and uses Li-Ion cells with increased density. As a result, it is able to provide a very long range - up to 60 km at maximum performance or up to 140 km during calm rides (average values for a standard 250 W motor). You no longer have to limit yourself!

Performance and Safety

The EBIKE03STD battery will serve you well for a long time. Its durable, sealed enclosure protects it from damage, and the built-in BMS system continuously monitors its operating parameters, ensuring efficient, reliable operation. The product is also protected, among other things, against deep discharge, overcharge, and overheating. All of this translates into greater safety of use!

Wide Compatibility, Easy Installation

Don't worry about compatibility issues - the battery uses electronics that are compatible with most bike models available on the market. Its installation is also very simple and quick - the package includes all the necessary accessories to make this task easier for you. Get ready to ride and embark on an unforgettable journey! The battery is compatible with motors such as Bafang, BMZ, Bosch, Brose, Fauza, Giant, Impulse, Panasonic, Shimano, Specialized, Yamaha, and others, as well as with bikes such as Ecobike, Gazelle, Giant, Yamaha, Haibike, Kalkhoff, Lovelec, Prophete, Merida, and others. Note: the product is not compatible with motors featuring recuperation.

Included in the Set

- Battery
- Charger
- 2x Keys
- Mounting Rail
- EU / UK Plug
- User Manual

Manufacturer

Green Cell

Model

EBIKE03STD

Capacity

15 Ah

Voltage

36 V

Cell Type

Li-Ion

For Motors Up To

250 W

Input

XLR 3 Pin

Enclosure Type

Silverfish

Mounting Method

On the frame (under the saddle)

Connector Type

4 Pin
