Wireless headphones, Vention, NBNB0, Earbuds Tiny T13 (black)

The Earbuds Tiny T13 wireless headphones from Vention are a product that combines modern technology with the functionality you expect from your devices. Equipped with Bluetooth 5.3, they provide a stable and seamless connection to devices within a 10-meter radius. The built-in microphone allows you to make phone calls, and the different modes of operation (normal, transparent and active noise cancellation) adapt to a variety of conditions. In addition, the Tiny T13 are extremely lightweight (4 grams) and feature an ergonomic design, making them comfortable even during prolonged use.

Stable connection

Thanks to Bluetooth 5.3 technology, the headphones maintain a stable connection with mobile devices, eliminating delays or interference. This means smooth listening to music, podcasts or calls, regardless of the user's location. What's more, this version of the wireless connection guarantees lower power consumption, so you can enjoy not only a more stable connection, but also longer listening to your favorite tunes.

Operation modes

Tiny T13 adapt to your needs! The headphones offer three modes of operation: normal, transparent and active noise cancellation. Normal mode is perfect for the office or library. Transparent allows you to keep in touch with ambient sounds, allowing you to safely use

the headphones while walking, biking or driving. Active noise cancellation mode works well in noisy places such as airports, cafes or subways.

Excellent sound quality

A high-quality sound processor ensures stable sound transmission and compression, resulting in an excellent audio experience. You can enjoy clear sound with crisp bass, making listening to music a pure pleasure.

Ergonomic design

The headphones are lightweight - weighing just 4 grams, making them comfortable to wear even for long periods of time. In addition, three sets of silicone tips allow the headphones to fit perfectly in the ear, further improving comfort and stability.

Long battery life

The capacity of the headphones is 30mAh, allowing up to 6 hours of music listening with ANC turned off. In addition, the 400mAh charging case allows you to recharge them several times, allowing you to use the headphones for a total of 28 hours.

Convenient charging

The charging case is equipped with a USB-C interface for quick and easy charging of the headphones and case. It powers up in an efficient manner, so you can quickly get back to using your equipment.

Included

Headphones with charging case

USB-C to USB-C cable (0.3 m) x 1,

Silicone ear tips x 3 sets (1 set already installed)
