Wireless earphones, Vention, NBKP0, Earbuds Elf E06 (pink)

Wireless headphones, Vention, NBKW0, Earbuds Elf E06 (pink).

The Vention Earbuds Elf E06 headphones are a sensational combination of sophisticated design and the latest technological advances. With advanced Bluetooth 5.3 and active noise cancellation, they provide a stable connection to mobile devices, allowing you to listen to your favorite music freely without any interference. Their minimalist white design makes them not only a great listening tool, but also a fashionable addition to your styling. Lightweight, comfortable and IPX4-rated moisture-resistant, they provide the comfort you deserve.

Delightful sound

Enjoy your music in great quality! The headphones support the full frequency range. With a built-in audio processor and SBC and AAC codecs, the headphones provide excellent sound quality that transports you into the world of your favorite songs with unprecedented clarity. Discover new nuances in songs and explore the richness of sound without limits.

Comfortable fit

You're sure to appreciate the comfort these headphones offer! The ergonomic design makes them fit perfectly to your ears, providing maximum comfort even during prolonged listening. A single earphone weighs only 3 grams, so you won't even feel that you have them in your ears!

Easy control

Operating the Elf E06 headphones is effortless, thanks to the popular Bluetooth profiles they support. Intuitive touch panels on the headphones allow you to easily control music playback, adjust the volume or even handle phone calls, all without the need for a phone.

Long runtime

The battery capacity of the headphones is 30mAh, which ensures long music listening time on a single charge - up to about 6 hours. In addition, the 230mAh charging case allows you to charge the headphones multiple times, ensuring that they will always be ready for use. With it, you can listen to your favorite tunes for a total of 16 hours! Thanks to the USB-C interface, charging the headphones and the case is fast and convenient. You don't have to worry about long waiting times for a full charge - it only takes a moment to enjoy your music.
