Wireless headphones, Vention, NBIB0, Elf Earbuds E04 (black)

Vention NBIB0 Elf Earbuds E04 are modern headphones that combine high quality sound, long battery life and comfort. They are designed for users who value comfort, performance and quality in their daily lives. Discover what they have to offer!

Bluetooth 5.3

Thanks to Bluetooth 5.3, the headphones support a stable connection over a distance of up to 12 meters, eliminating interference and ensuring smooth switching between functions. The AVRCP/A2DP/HFP/HSP profiles allow for versatility in use, allowing seamless handling of music, phone calls, as well as voice commands. After the first connection between the headphones and the selected device, each subsequent connection is automatic, making use even more convenient.

High quality sound

The headphones support the SBC/AAC codec, offering clear and rich sound with a frequency of 20Hz-20kHz. This makes every sound experience, from listening to music to phone calls, natural and enjoyable, allowing you to fully immerse yourself in the world of sound.

Perfect for phone calls

You can talk freely with these headphones. They support ENC noise cancellation, so they provide crystal clear voice sound during every

call. They also effectively eliminate background noise, so your voice will be clearly audible to your caller regardless of what's going on around you.

Long-lasting operation and charging convenience

Each handset has a 40 mAh battery, providing up to 6 hours of continuous use. A charging case with 300 mAh capacity adds another 16 hours, for a total of 22 hours of continuous use. The sleeve is equipped with a USB-C connector, allowing for quick charging, and a built-in LED display makes it easy to check the headphone's power level.

Waterproof and durable

With IPX5 water resistance, the headphones are protected from sweat and rain, making them an ideal choice for athletes and active people. The housing made of durable ABS plastic ensures long-lasting durability.

Comfort and fit

The headphones come with three sets of ear tips, with one pair already installed, ensuring a perfect fit for each ear. This guarantees comfort even with prolonged use, allowing you to enjoy music or conversations without discomfort.
