

## UV Flashlight Superfire A5, 365NM

UV Flashlight Superfire A5, 365NM

Ref: 6974760350320

### UV Flashlight Superfire A5

The A5 allows you to see things that are not visible to the naked eye. With this practical UV flashlight you can detect traces of animal urine in your home, invisible food stains on clothes, carpets or other fabrics, as well as dirty marks in the bathroom and various fluorescent agents. Equipped with a capacious battery will serve you for about 90-120 minutes on a single charge. The set includes a micro USB cable, with which you will renew the power of the accessory.

### Practical

The Superfire flashlight is an accessory that you will find useful every day. The device uses 365NM waves, thanks to which you will see invisible to the eye stains, for example, stains in the bathroom, pet urine, fluorescent agents, mites, etc. You can also use it to check the authenticity of a banknote or documents such as driver's license or ID card. What's more, the UV light of the flashlight accelerates the drying of nail polish and resin.

### Convenient charging

The flashlight is powered by a rechargeable battery/battery that you can recharge multiple times. It allows you to use the A5 for up to 120 minutes on a single charge. You will renew the energy of the accessory using a cable with a micro USB port, included in the set.

#### Solid and compact

A5 was made of high quality materials, which makes it resistant to minor mechanical damage and minor splashes. Anti-slip finish provides stability, so you can be sure that the flashlight will not slip out of your hand. It weighs only 82g and its size is comparable to a smartphone - the flashlight dimensions are 128 x 28 x 26 mm. You can successfully store it in your pocket, purse or backpack.
