

Polarizer Filter Freewell for DJI Avata 2

Polarizer Filter Freewell for DJI Avata 2

Ref: 6972971865350

Freewell Polarizing Filter for DJI Avata 2

The Freewell polarizing filter is specially designed for the DJI Avata 2 drone. It allows you to reduce unwanted reflections from water or other surfaces, enabling you to achieve more natural colors, deeper contrast, and clearer details. It is made of high-quality optical glass that is resistant to scratches and dust. Thanks to its lightweight aluminum alloy construction, the filter weighs only 0.5 grams - so you don't have to worry about it affecting your drone's performance.
