

Gens Ace 65W Power Supply Adapter-EU

Gens Ace 65W Power Supply Adapter-EU

Ref: 6928493308363

Gens Ace 65W Charger

The Gens Ace 65W-EU power adapter for the IMARS mini charger is a reliable and efficient solution that provides a stable power supply for model chargers. Designed specifically for the IMARS mini charger, this adapter offers 65W of power for fast and efficient battery charging. Thanks to the European plug standard (EU), it is compatible with most electrical outlets in Europe, eliminating the need for additional adapters. Robust construction and high-quality materials guarantee long-lasting use and safe operation. The Gens Ace 65W adapter is an ideal choice for modelers who need a reliable power supply for their IMARS mini charger, allowing them to focus on their hobby without worrying about power quality.
