

Gens ace G-Tech 5000mAh 22.2V 60C 6S1P Lipo Battery Pack with EC5 Plug

Ref: 6928493309261

Gens ace G-Tech 5000mAh 22.2V 60C 6S1P Lipo Battery with EC5 Plug Connector

The Gens ace G-Tech is designed for applications where reliability and performance are key. Thanks to its lithium-polymer technology, the battery not only provides long-lasting use, but also maintains a low temperature during heavy use, which is important for models flying at full power throughout the flight. It features fast-charging capability and a long life cycle, almost twice as long as standard lipol batteries. The maximum pulse discharge capability reaches 120C, making it an ideal choice for 600/700 scale helicopters and drones such as the MIKADO LOGO500, ALIGN T-REX550/600, and GAUI X5. It is also suitable for X-Class drones, which are large racing drones between 800 and 1200 mm in size.
