MINI PC GMKtec K8 AMD Ryzen 7 8845HS 32GB RAM + 1TB SSD Silver

GMKtec K8 MINI-PC AMD Ryzen 7 8845HS 32GB RAM + 1TB SSD silver.

GMKtec Nucbox K8 is a mini PC that uses AMD Ryzen 7 8845HS processor. With its advanced Radeon 780M graphics chip and various ports, the device is perfect for office work, gaming, as well as multimedia creation and editing.

### AMD Ryzen 7 8845HS processor

At the heart of the GMKtec Nucbox K8 computer is the AMD Ryzen 7 8845HS processor. It is built using 4nm technology. It offers 8 cores and 16 threads, ensuring smooth performance even when using demanding applications. The maximum frequency of 5.1 GHz ensures fast processing, and the configurable TDP (35-54W) allows you to customize performance.

### Radeon 780M graphics

The integrated Radeon 780M graphics chip with Zen 4 Hawkpoint architecture provides excellent image quality and graphics performance. This makes the Nucbox K8 mini PC an ideal solution for gamers and professionals working with graphics and video.

### Memory and storage

The Nucbox K8 offers 32GB of DDR5 5600MHz memory in dual channel configuration (2x16GB), guaranteeing fast data access and smooth operation of multiple applications simultaneously. The 2 M.2 2280 SSD slots (with a maximum capacity of 4TB each) allow you to

freely manage your storage space and enable lightning-fast data transfers thanks to PCIe GEN4.0 (read speeds of 5000 MB/s).

#### Wide compatibility

The GMKtec computer is equipped with ports such as 2.5G LAN, USB-C, HDMI, USB 3.2 Gen2, USB 2.0 and DisplayPort, providing versatile connectivity for a variety of peripherals and displays. It's possible to connect up to 3 displays simultaneously (HDMI + DP + USB-C) and display 4K quality video at 144Hz, so you can work more efficiently and enjoy even more entertainment. In addition, the USB 4.0 port offers data transfer speeds of up to 40 Gbps, allowing you to transfer large files at 4 times the speed of USB 3.2.

#### Fast and reliable connection

The Nucbox K8 compact PC supports the latest Wi-Fi 6E standard, offering wider bandwidth (2.4GHz, 5GHz, 6GHz), faster speeds, more channels (80MHz, 160MHz, 320MHz) and better connection stability. And Bluetooth 5.2 provides fast and stable connections to wireless devices such as headphones, keyboards and mice.

#### Quiet operation and efficient cooling

Thanks to the use of dual copper heatpipes and a powerful fan, the Nucbox K8 maintains optimal operating temperatures even under heavy load without generating annoying noise.

#### Expandable and easy to install

Thanks to the modular design, the replacement of RAM and SSD drives is smooth and hassle-free. The maximum memory capacity is 64GB DDR5 5600MHz, allowing you to adapt the device to your growing needs. The 2 slots for M.2 2280 SSDs allow space expansion up to 16TB. The VESA mounting capability allows you to conveniently place the computer behind your monitor, saving space on your desk and making your workstation look aesthetically pleasing.

#### Included:

Nucbox K8 Mini PC  
Power supply with cable  
HDMI cable  
VESA mount with screws  
User manual

Manufacturer: GMKtec  
Model: GMK-K8  
Processor: AMD Ryzen 7 8845HS (8 cores, 16 threads, up to 5.1 GHz)  
RAM: 32 GB DDR5 5600MHz (max. 64 GB)  
Storage: 1TB max. up to 4TB, PCIe 4.0 M.2 2280 SSD  
Graphics: Radeon 780M, Zen 4 Hawkpoint  
Connectivity: Wi-Fi 6E, Bluetooth 5.2, 2.5G LAN (x2)  
Ports: 1x USB 4.0 (Type-C, PD/DP/Data 100W), 2x USB 3.2 Gen2 (10Gbps), 1x USB 3.2 Gen1, 2x USB 2.0, 1x HDMI 2.0 (4K@60Hz), 1x DisplayPort 1.4 (4K@144Hz), 2x RJ45 LAN (2.5G), 1x 3.5mm audio  
Cooling: Fans with dual copper heatpipes  
Operating system: No system  
Dimensions: 11.2 x 12.3 x 4.3 cm  
Mounting: VESA mountable
