ONIKUMA Bluetooth In-Ear Headphones T18 White

ONIKUMA T18 are revolutionary Bluetooth in-ear headphones that combine elegant design with the latest technology. Equipped with an innovative Bluetooth 5.3 chipset - they provide low power consumption, reliable transmission and minimal latency. This makes them ideal not only for listening to music, but also for playing games and watching movies. In doing so, they guarantee fantastic sound quality that will take your musical experience to a whole new level.

Bluetooth 5.3

The ONIKUMA T18 headphones use the new generation of Bluetooth 5.3, which ensures low power consumption, fast, stable transmission and low latency - only about 90 ms in gaming mode. So you can enjoy perfect synchronization of video and audio even during extremely dynamic games! What's more, the smart connection technology enables fast and automatic pairing - without having to repeat the whole process each time.

Perfect for conversations

Thanks to dual microphones with ENC technology, the T18 headphones effectively eliminate ambient noise for crystal-clear sound quality during phone calls. This is perfect for noisy environments as well as at home. With ONIKUMA, you gain the confidence that your callers will hear your every word with ease!

### Stylish design

The headphones are characterized not only by functionality, but also by style. They are available in three colors - white, brown and beige, so you can match them to your personal preferences. There's something for everyone, whether you're looking for something classic or more extravagant. The headphones are also distinguished by their ergonomic design, so they provide unparalleled comfort.

### Long runtime

The T18 offers up to 5 hours of music playback on a single charge, and the included case allows you to extend this time to about 18 hours. What's more, the headphones last about 30 hours in standby mode. To recharge them, you only need about 2 hours - you don't have to wait too long until they are ready to work again.

Manufacturer ONIKUMA Model T18 Color White Bluetooth 5.3 Operating time Up to 5 h / up to 18 h with case Standby time Up to 30 h Charging time Approx. 2 h
