

## UV Lens Filter Puluz For Insta360 Ace Pro (52mm)

UV Lens Filter Puluz For Insta360 Ace Pro (52mm)

Ref: 5906168435560

Puluz UV Filter for Insta360 Ace Pro (52mm).

Give your Insta360 Ace Pro camera extra protection and improve the quality of your photos with the Puluz UV filter. This high-quality accessory is the perfect accessory for any film and photography enthusiast who wants to get the most out of their equipment.

### Comprehensive protection and durability

The Puluz brand UV filter is made of durable aluminum alloy, which ensures its longevity and resistance to damage. Its lightweight, portable design makes it an ideal travel companion. It also protects the camera lens from dirt, dust and scratches, keeping it safe in a variety of conditions.

### Easy installation and use

The accessory can be mounted directly on the Insta360 Ace Pro camera lens, making installation and removal extremely easy. An adapter, UV filter cap and allen wrench are included, providing a complete kit for easy installation.

### Use of the UV filter

The UV filter protects the lens and reduces the blue tones caused by ultraviolet radiation. This not only makes the camera safer to use, but also improves the quality of your shots!

#### Compatibility with other filters

The adapter with an inner diameter of 52 mm allows you to connect with other filters with the same outer diameter, such as CPL and ND, for example. This allows you to expand the capabilities of your camera equipment, adapting to different conditions and styles of photography.
