

Magnetic POV Holder Head Mount PULUZ for Insta360 GO 3

Ref: 5906168435669

Magnetic POV Holder Head Mount PULUZ for Insta360 GO 3

PULUZ Magnetic POV Head Mount for Insta360 GO 3

Gain a new perspective when recording with the PULUZ POV Magnetic Head Mount for Insta360 GO 3. Designed with convenience and functionality in mind - it allows you to capture dynamic shots from a first-person perspective. This makes it ideal for filming extreme sports, travel and more.

Durable and comfortable design

The PULUZ grip is made of high-quality ABS materials, and the parts in contact with the skin are coated with silicone, which increases friction and prevents slippage. As a result, the accessory is not only durable, but also extremely comfortable to wear without feeling any pressure. It will be perfect for long-term use, providing comfort and stability.

Magnetic attachment

Thanks to the built-in magnet, the PULUZ mount allows you to quickly and easily attach the Insta360 GO 3 camera. Instead of complicated mounting, it takes just one click to attach or detach the device. This solution significantly saves time and simplifies the recording process, which is perfect for dynamic action.

Adjustable mount

The PULUZ mount is equipped with an adjustable mount that can be adjusted to different head sizes. A stretch mechanism allows for easy adjustment, and when the accessory is not in use, it can be worn comfortably around the neck. The lightweight and compact design makes it ideal for travel and outdoor recording.

Versatile recording angles

The POV PULUZ mount allows 360-degree vertical adjustment for a variety of recording angles. This makes it easy for you to customize it to create perfect shots no matter what the situation. This is an extremely useful feature for any content creator who wants to experiment with different perspectives.
