IP Indoor Camera ZOSI C528M WiFi 5G Dual 6MP

Ref: 6941709234157

IP Indoor Camera ZOSI C528M WiFi 5G Dual 6MP

ZOSI C528M WiFi 5G Dual 6MP indoor IP camera.

Keep tabs on what's happening at home in your absence. The ZOSI C528M indoor IP camera provides excellent 6MP image quality and a wide range of features, such as automatic motion tracking, to guarantee security and convenience in your home. In addition, you can communicate with your household members thanks to two-way audio support. What's more, the camera is easy to use, and the kit includes the necessary accessories for installation and proper operation of the equipment.

Detailed image in all conditions

The ZOSI C528M camera is equipped with a 6 MP (2304*1296) sensor, which provides crystal clear and detailed images. The 1/3.0" progressive scan CMOS sensor and 4mm lens at F2.0 guarantee excellent detail even in low light. Automatic switching between day and night modes, thanks to its sensitivity to soft light, enables night monitoring up to 10 meters.

Simple control and advanced features

The ZOSI C528M supports dual video transmission, allowing simultaneous transmission of 3MP (23041296) and D1 (640360) quality video. The 1.44-inch screen displays date, time, weather, temperature and humidity. In addition, two-way video calling and automatic motion tracking features make the camera ideal for everyday use in the home.

Peace of mind and protection with smart features
The ZOSI C528M camera uses the H.265 video compression standard, which optimizes the use of bandwidth and recording space. It supports various types of recording, including continuous and alarm recording, and offers local Micro SD card storage (up to 128GB) and cloud storage. Intelligent motion and intrusion detection features and the ability to set up to 5 privacy areas ensure complete security.

Durability and versatility
The camera is powered by a USB-C cable, which you'll find included along with a power adapter. What's more, the ZOSI C528M is rated to operate in temperatures from -10°C to 60°C and humidity up to 95% (non-condensing). In turn, the included components make it easy to mount it on a flat surface, ceiling or wall.
