

Arzopa Smart Photo Frame P156W 15,6"

Arzopa Smart Photo Frame P156W 15,6"

Ref: 6975114120217

Arzopa P156W 15.6" digital photo frame

The Arzopa P156W digital photo frame offers a modern solution for displaying photos and videos, combining advanced technologies and intuitive features. It features a large Full HD screen and a large memory that can hold up to 80,000 photos. What's more, thanks to a dedicated app, sending images from your gallery will be very fast and easy. See what else the Arzopa frame can offer you!

High-resolution display

The P156W is equipped with a 15.6-inch screen, which features a resolution of 1920 x 1080 pixels. Such a display not only provides a clear and detailed image, but also improves the viewing experience for photos and videos. The screen's 16:9 aspect ratio is ideally suited to modern multimedia standards, which translates into an aesthetically pleasing display of content.

Integrated memory and format support

The Arzopa P156W has 32GB of built-in memory, allowing it to store a large number of multimedia files. The device supports popular photo (JPEG, JPG, PNG, WEBP) and video (MP4, M4V, 3GP) formats, making it compatible with a variety of content sources.

Ease of connection

A variety of connectivity options are at users' disposal, including a DC power port, a USB-C port and a Micro SD card slot (with a

maximum memory of up to 128 GB). These inputs ensure easy and fast file sharing, as well as compatibility with a wide range of external devices.

Smart features and Frameo app

An innovative auto-rotate and frame-fill function ensures that the most relevant parts of the image are always presented on the screen, adjusting the orientation to the format of the photo or video. In addition, the frame works with the Frameo app, allowing you to easily and quickly position the image of your choice, wherever you are.

Full HD touch screen

The touch screen will allow you to personalize the frame's settings. It puts you in control of every aspect of your photo presentation - you can zoom in on images, choose which photos you want to display, adjust screen brightness, and even activate special modes such as Sleep mode.
