Teclast T65Max 13" 8/256 GB WIFI tablet (gray)

The Teclast T65 Max is a tablet with a 13-inch INCELL IPS screen with a resolution of 1920x1200p, which has a brightness of 10 to 300 cd/m². The device is powered by an MT6789 processor with A76 (2.2 GHz) and A55 (2.0 GHz) cores. It also guarantees 8 GB of RAM. It runs Android 14 and features a 10,000mAh battery with 18W fast charging via USB-PD. The tablet also offers LTE with download speeds of up to 600 Mbps, Bluetooth 5.2 and advanced photography and audio features, including 13MP and 8MP cameras and four speakers with smart amplification.

Screen and display technology

The tablet uses TDDI screen technology, which combines the functions of a touch panel and display to provide a thinner design and better touch response while maintaining vivid colors and image sharpness. Screen brightness can be adjusted from 10 to 300 cd/m² for comfortable use in both well-lit and darker environments.

Performance and operating system

Thanks to the MT6789 processor, which offers high- and low-power cores, the tablet can handle a wide range of tasks - from Internet browsing to more demanding apps and games. Android 14 brings advanced personalization and security capabilities, including an enhanced task view and support for parental controls.

Durability and charging

The 10,000 mAh battery allows for up to 32 hours of music playback, 12 hours of movie watching, or 10 hours of internet browsing. The 18W fast charging via USB-PD allows the device to restore power in no time.

Communication and connectivity

LTE with TDD+FDD technology provides fast download speeds of up to 600 Mbps, while support for Wi-Fi on the 2.4 GHz and 5 GHz bands and Bluetooth 5.2 ensures stable and fast connections.

High quality sound and calls

The tablet is equipped with four speakers that use Teclast SWEET 4 audio technology to deliver clear and deep sound. AI noise cancellation in the microphones ensures that the user's voice is always heard clearly and distinctly, regardless of background noise.

Photography and video conferencing

The Teclast T65 Max has two built-in cameras: a 13MP rear camera with auto-focus and an 8MP front camera, ideal for photos, videos and video calls. An additional AI camera helps optimize photos and video for better image quality in different lighting conditions. In addition, an advanced facial recognition system provides fast and secure access to the tablet, protecting personal information from unauthorized access, ensuring safe use of the device in a variety of environments.

Navigation and localization

Support for GPS, GLONASS, Galileo and Beidou, as well as the A-GPS function, provide fast and precise location of positions around the world, which will surely be appreciated by those traveling and working in the field.

Reliable sensors

Integrated light, proximity, Hall, geomagnetic, gravity and gyroscope sensors adapt the device's performance to the environment, enhancing comfort and efficiency.

Included:

Tablet 5V/3A charger USB-C cable User manual
