SUNNYLIFE microphone for Insta360 X4

Dreaming of excellent sound quality when recording videos or video conferencing with your Insta360 X4 camera? The microphone from Sunnlyife is a reliable solution that will give you professional sound without any complications. Thanks to its plug and play feature, using it is extremely easy - just plug it into your device to start recording video or audio. It will be great for live broadcasting, vlogging, interviewing or remote learning.

Distortion-free sound

The high-sensitivity omnidirectional microphone guarantees clear and crisp sound recording from any direction. Thanks to the microphone sponge, it effectively reduces ambient noise, ensuring professional, clear audio even in difficult conditions.

Compact and lightweight

The Sunnlyife microphone is not only excellent in terms of sound quality, but also in its carefully considered design. Its light weight of just 6 grams means you can easily attach it to your clothing or fasten it to your shirt, allowing you to use it freely with both hands.
